I can pick your locks
Put you up on blocks
Strip you down for parts
Mega-amp jump start

But when you call on me
Best be ready to pay my fee
You only get one chance to do right by me

It's always drive, drive drive
Got to move to survive
That's the law of the ghetto
Know when to stay and when to go

But when you call on me
Best be ready to pay my fee
You only get one chance to do right by me
It's me you'll owe [2x]
So don't owe me
Don't even try to do something to make me feel

Well I'm the ghetto mechanic
There's no need for panic
I drink malt liquor for kicks
There ain't no problem I can't fix
But when you call on me
Best be ready to pay my fee
You only get one chance to do right by me
It's me you'll owe [2x]
So don't owe me
Don't even try to do something to make me feel
