I am the peacemaker
I'll pound sand right up your ass
Our moral codes differ
You are scum... that is all

A trail of shit follows you around
On the edge, it's a hell of a drop
Your number's up
We've got your name and your middle name

I am the peacemaker
I'm right and you are wrong
I am the peacemaker
You are wrong, that is all

A trail of filth follows you around
On the edge
It's a hell of a drop

Peacemaker
