So it's come to my attention  
Some things you don't understand  
Wandering through a cycle  
When the power lay in your hand

Well there's an old expression  
About how to play the game  
Where Triumph and Disaster  
Are imposters just the same

[Chorus:]  
I understand  
Do you understand  
Understand?

So some they ask me  
And this is what I say  
The only thing worth having  
Is what can't be taken away

[Chorus x2]

Well I can show you  
Just what I mean

[X2]

Well it's my world  
I see with blinding sight  
Don't read from a Book  
I decide what's wrong and right

So when all is evil  
Don't leer into the sky  
The power of creation  
Is inside you and I

[Chorus x2]
