The big ball swings towards you and him on her
When the finding's out and the fryin' pan flies
And the sound resounds when your love is burned
And you just can't take it any more

When the walls come down
When the walls come down
A crack starts near ground
Will it all come down

There's the fear that's like a leech on your heart
And it's in the eyes of your enemy
Then there's the clutch near death the dying strike
Impress your fist upon the face of eternity

When the walls come down
When the walls come down
A crack starts near ground
Will it all come down
