Chorus

Slowly burning

The slow burn of this planet's turning

Here we are praying to the dog star

In god's we've trusted

All the meanings of our lives

Are seen through mushroom clouds

Telepathic screams and all our dreams

All our dreams...

Chorus

On the dog star radio love still heals

On the dog star radio hate still kills

On the dog star radio no one for a minute

Believes in man-made reality

Chorus

Never tune out because of pain or of fear

Dog star radio

Chorus:

Dog star radio in my mind

Wish I hadn't been born with sight

Then become blind

Dog star radio loud and clear

Never tune out because of pain or of fear
