Guys in rides with their future brides  
Stopping for a light in a child's line of sight  
On the hubcap TV set overhead a Pan Am jet  
Engine level heat waves  
Caught up in this summer daze  
In the offices and tower blocks  
Pure flamenco when they walk  
Corridors polished floors  
Spanish place matadors  
The sound of the bell rings  
To the king they must bring  
The latest report on where the dollar's sitting  
Chorus  
Chained waiting short on thanks  
Love is money in the bank  
Watch the little darlings grow  
Scared for them rightly so  
Wish upon a falling star scraped knees  
Pink scars hopes and dreams two for one  
In the land of legal handguns legal handguns  
Chorus:  
Dream today  
Dream today  
You are flying high above all  
That you love knowing it'll  
Be ok today's getting better  
Dream today
