

Joy Drop "Until"

Visit "[Until](#)" on MotoLyrics.com

Half the time I wake at night
Wondering how the miracles got it right
I wish on every falling star and whisper your name
I'm hoping that you and I will always remain
Chorus
Times change so do we
Lovers become strangers building separate dreams
I've wished on every falling star
And whispered your name
Hoping that you and I would always...remain
Chorus
Every waking hour every moment you're not here
Every forgotten promise reminds me
I won't forget your broken wings on that rainy day
I'd rather see you fly again than always remain
Chorus:
Until the joy drops again it won't be long...
Until the joy drops again stay strong remain
Until the joy drops again it won't be long...
