And if it takes you by surprise
You will be known to take a side
The blue awakening on fire
Two two

You left me on a fly
I never asked you why
So I still have to wait
Until I Viberate, yeah
Love the things that you hate

Too cool for taking off you clock
I will seduce you with the way I talk
You don't believe me I can tell
Well go fuck yourself the 'cause you might as well
Two two

You are a star
That's what you are

I heard it said then I went to bed
Assumed the shape of glove and wire
You're so sedate it makes me so inspired
Two two
