Oo la la lala oui oui x4

J RANDALL

You're like a little French girl
I'll bet her name was Paris in the winter
So classy and so lavish in her mink fur
I just wanted to grab her and just kiss her,
wife her

So just cuff me now
Girl you know you just lock me down in
your soul forever and I'll be around
Can't stay down cause you are my future now

And my heart's been saving up all this loving
And it's reserved for you (?) if you want it
Hey so come and get it x2
We can live the good life I see it coming
You'll be my one and only woman
Hey so are you with it x2

Oo la la lala oui oui x8

AKON

No more heart breaks (heart breaks)
Loving you is my intention
Bringing you, what is missing to you babe
Trapped in your love case
'Cause a life of love is my sentence
And I'll do every minute for you baby

So just cuff me now
Girl you don't know, you just lock me down
in your soul forever and I'll be around
Can't stay down cause you are my future now

J RANDALL

And my heart's been saving up all this loving
And it's reserved for you (?) if you want it

Hey so come and get it x2
We can live the good life I see it coming
You'll be my one and only woman
Hey so are you with it x2

Oooh la la lala oui oui x8

AKON

Single ladies in the house tonight
Which one of you want a piece of my life

J RANDALL

Single ladies in the house tonight
Which one of you is leaving with me tonight?
Then sing

Oo la la lala oui oui x8

And my heart's been saving up all this loving
And it's reserved for you (?) if you want it
Hey so come and get it x2
We can live the good life I see it coming
You'll be my one and only woman
Hey so are you with it x2

Oo la la lala oui oui x8
