2012 could have been today, could have been
tomorrow
Sometimes love™ s gotta face it, the women gone
and blown away
Now the air we crawl, through the hole, you the faded
baby
I can see the planes and birds flying above all, and
keep
I can see the sunset fall, but now I fall

Cause you popped my balloon
I was floating away, away to the moon
And then you came along, yeah you popped my balloon
I can see the ground, I™m falling over you
The sky is spinning round, cause you popped my
balloon

I really thought I had it all figured out
And then you came, like a spot light in the crowd
And baby I know, so baby I know
That change is gonna come, but you really never know
how
I and out of the blue, what could I do?

Cause now I™m falling with no parachute

Cause you popped my balloon
I was floating away, away to the moon
And then you came along, yeah you popped my balloon
I can see the ground, I™m falling over you
The sky is spinning round, cause you popped my
balloon

Yeh, I must feel so and no clouds I have no fear
I™ma keep on falling for you, are you and you

I really thought I had it all figured out
And then you came, like a spot light in the crowd
I was floating away, away to the moon
And then you came along, yeah you popped my balloon
I can see the ground, I™m falling over you
The sky is spinning round, cause you popped my

balloon
Cause you popped my balloon.
