Yeah I know, I know, I know
That I saw you at the mall,
You were getting at his car,
And, girl I tried to call, but you ain't become
Do you, do you really think I don't got eyes on the
street, baby
You should be more discreet
Did you, did you really think I won't mind
Just because I did it to you, told you it was the last time
It was the last time, girl you don't act right
Somebody sleeping in my bed tonight
Cause you know, I didn't wanna fight
But is she ain't right
Somebody is taking my place and taking my baby
Baby, you're...

Chorus:

I know you ain't feeling the same
Cause when we're making love together I can see on
your face
I know, I know, someone else is taking my place!
I know, I know, someone else is taking my place!
I know you ain't feeling the same
Cause when we're making love together,
Girl, I feel like it's strange
I know, I know, someone else is taking my place!
I know, I know, someone else is taking my place!

Do you really think... cover ups?
You'll be on the phone saying...
Never seen... ever stop
Baby, you better start explaining, explaining
Even though I did with dirt I know you're hurt with that
No excuse, so he'll be wearing my shirt

And I know, I know someone else is sleeping in my bed
I know, I know, I know, someone else is taking my
place!

Chorus:

I know you ain't feeling the same

Cause when we're making love together I can see on
your face
I know, I know, someone else is taking my place!
I know, I know, someone else is taking my place!
I know you ain't feeling the same
Cause when we're making love together,
Girl, I feel like it's strange
I know, I know, someone else is taking my place!
I know, I know, someone else is taking my place!

When I was running the block, I didn't want to stop
Love me like you do, cause girl, you know you have my
whole love!
... can you trust him?
Does he call you "baby", baby, baby, baby?

Chorus: (x3)
I know you ain't feeling the same
Cause when we're making love together I can see on
your face
I know, I know, someone else is taking my place!
I know, I know, someone else is taking my place!
I know you ain't feeling the same
Cause when we're making love together,
Girl, I feel like it's strange
I know, I know, someone else is taking my place!
I know, I know, someone else is taking my place!
