I hate to say it but I love it when you call me up
My hearts just critic and I love you for it
Keeps me working for ya
constantly improving for ya
Always something that can be a little better
You know me better then I know myself
that's why you push me to be better then I know myself
Believe me with just a little time
I stay on the grind
Working overtime

I promise that I'll never put know one above ya
I fill your nights with non stop lovin
Relax your mind and let your body follow
Let me work you nine to five
My victoria secret model
I promise that I'll never put know one above ya
I fill your nights with non stop lovin
Relax your mind and let your body follow
Let me work you nine to five
My victoria secret model

Let me tell you what I wanna do
To say thank you for being you
I'm gonna show you what real love is really made of
Hold your breath
Bite your lip
Your toes are about to curl up
Its gonna be a feeling you ain't never felt before
Ohh (ohh)
Ohh (ohh)
Ohh (ohh)
Let me introduce you to
A new world filled with only me and you

I promise that I'll never put know one above ya
I fill your nights with non stop lovin
Relax your mind and let your body follow
Let me work you nine to five
My victoria secret model promise that I'll never put
know one above ya

I fill your nights with non stop lovin
Relax your mind and let your body follow
Let me work you nine to five
My victoria secret model

Repeat till end
