Spreading my wings learning how to fly
You gotta let me go now everything's gonna be alright
I'm leaving day spring with destination sky
Don't worry 'bout me now, me now, no
Everything's gonna be alright

When my days turned to night times
And my nine to five turned into a life of rhymes
Wings tied so I couldn't see the seasons
Bitterness inside came with many different reasons
I was there bleeding you ready with first aid
So committed still I went and cheated in the worst way
Causing friction our apartment got a earthquake
Screaming why Jay on the ground with a outbreak
I know I was doing what I shouldn't do
Why am I self-centered a self-destructive fool
I couldn't work our house I had no power tools
I was out cool while you're home call cooking food
It's hard to repair and fix the past
When the mirrors all broken you cannot puzzle the
glass
Seven years of bad luck I think I crashed
While you spreading your wings my wings turning to
ashes

Spreading my wings learning how to fly
You gotta let me go now everything's gonna be alright
I'm leaving day spring with destination sky
Don't worry 'bout me now, me now, no
Everything's gonna be alright
For better for better for the worst
Everything's gonna be alright

Here's a token of appreciation
Gotta oversee emotions to give information
But my ocean of emotion's like a fixation
So I gotta tell our story 'cause it's liberating
I did everything to be with you
Even put music aside so you can handle school
Now in my mind I think I didn't do enough
'Cause that's always what you told me and I guess that

I am pitiful
I used to think you need a different man
'Cause I had my life on pause while you had a plan
I know deep down that I am lost while you understand
Hawk eye you could oversee I'm front man
And with the show comes the crowd too
But our relationship is bad so they all boo
I guess we stressing the performance
No sound check but nobody ever warned us

Spreading my wings learning how to fly
You gotta let me go now everything's gonna be alright
I'm leaving day spring with destination sky
Don't worry 'bout me now, me now, no
Everything's gonna be alright
For better for better for the worst
Everything's gonna be alright

I wish that I could turn back time
But I can't so I gotta write it down one time
I wish that I could turn back time
But I can't so I fly destination sky

I wish that I could turn back time
But I can't so I gotta write it down one time
I wish that I could turn back time
But I can't... destination sky

Spreading my wings learning how to fly
You gotta let me go now everything's gonna be alright
I'm leaving day spring with destination sky
Don't worry 'bout me now, me now no
Everything's gonna be alright
For better for better for the worst
Everything's gonna be alright
Everything's gonna be alright
