"Miles Of Freeway"

Visit "[Miles Of Freeway](#)" on MotoLyrics.com

She said that she didn't want a relationship
This I heard from my best friend
She told you just how I felt
This I heard from my best friend

And it hurts to hear it this way
And it hurts when you hurt me this way

She said, "You don't realize the struggle that's going
on."
This I heard from my best friend
I said, "I don't want to handle this before your gone."
This I heard from my best friend

And it hurts to hear it this way
And it hurts when you hurt me this way

And it hurts to hear it this way
And it hurts when you hurt me this way
Just separated through miles of freeway

And now I have that broken hourglass in my hand
Watching the sand fall down

She said that she didn't want a relationship
This I heard from my best friend
