Someone wake me up, I must be dreaming  
I never never knew, I love so true  
When I'm next to you it's such a feeling  
And I don't wanna let you go

You seem to never hear me calling  
I've waited so long, don't wanna be wrong  
I can't stop myself from falling  
So hear me out before I'm gone

Baby stay with me, 'coz I can make it better  
All I want to be is together with you

I will fall to pieces if you ever leave me  
Boy you driving me crazy, when will you see?  
That you're all that I, all that I need

There will be no more tomorrow  
Without your smile, I'd surely die  
I will be drowning in sorrow  
If you would leave my side

My heart is in the hands of your decision  
Now will you stay or walk away?  
I never know about a passion  
That kept my love to you alive

Baby stay with me, 'coz I can make it better  
All I want to be is together with you

I will fall to pieces if you ever leave me  
Boy you driving me crazy, when will you see?  
That you're all that I, all that I need

I will fall to pieces if you ever leave me  
Boy you driving me crazy, when will you see?  
That you're all that I, all that I, all that I need

Baby stay with me, 'coz I can make it better  
All I want to be is together with you

I will fall to pieces if you ever leave me  
Boy you driving me crazy, when will you see?  
That you're all that I need

I will fall to pieces if you ever leave me  
Boy you driving me crazy, when will you see?  
That you're all that I, all that I need

I will fall to pieces if you ever leave me  
Boy you driving me crazy, when will you see?  
That you're all that I need

I will fall to pieces if you ever leave me  
Boy you driving me crazy, when will you see?  
That you're all that I, all that I, all that I need
