I am blessed that my good fate
Brought me you as my soul mate
I've known you since forever
We used to play together
Always knew that one day
This I'd vow to you
I do
I will share my life with you
I will love you, I'll be true
My heart filled with laughter
Happy ever after
Yes I do
This I promise you, I do
As we're making one of two
In this we're together
For worse or for better
I'll be loving you forever
Yes I do
I'll be your woman and your girl
See how I'm gonna rock your world

This day that we surrender
Oh boy you will remember
All so happy that you go me
To say to you
(FRIENDS)
Tonight the start of your new life
And he better always treat you right
Cause you two belong together
And you're ment to last forever
Cause you know what you got to say
Those two words?
I do
I will share my life with you
To my heart I will be true
Your friend and your lover
Love you like no other
Yes I do
This I promise you I do
As we' re making one of two
In this we' re together
For worst or for better

I'll be loving you forever
Yes I do
