Please Don't Break My Heart

Please don't leave me lonely
Please don't break my heart
Be my one and only

Please don't leave me lonely
Stay with me forever
I belong to you
Please don't break my heart

I've been wishing you were here

I've be" wishing you were here
To take away this pain
Am I holding on in vain?
I really need to know
I made a mistake when I let you go
Now im suffering
Tell me what to do to bring you back
To what we had
What we had so long ago

The times we shared so" long before
Baby tell me what to do to make things right with you

Please Don't Break My Heart
Please don't leave me lonely
Please don't break my heart
Be my one and only

Please don't leave me lonely
Stay with me forever
I belong to you
Please don't break my heart

no no no

Please don't break my heart

(Kalomira, Let's go... oh)

My life is seem so worthless since you went away

My days and nights so empty

I can't go on this way

Dreaming that we could still be one

All my dreams come" true

All we had so long ago...

The times we shared so long before

Baby tell me what to do to make things right with" you

Please Don't Break My Heart

please don't leave me lonely

please don't break my heart

be my one and only

Please don't leave me lonely

Stay with me forever

I belong to you

Please don't break my heart
