Alive...

The stars are shining bright tonight  
the moonlight is up I feel alive  
as I stare at you looking at me  
I can see  
our love is still alive  
more than what it could ever be...

Chorus:

As time goes by we'll be alive  
no matter what we do  
we'll still be here  
I'll be loving you  
no one can say  
what we cant do  
we are stronger I love you  
as time goes by we'll be alive...

The breeze of night is in my eyes  
with wind of love flying through the sky  
as the force of our love  
pushes in our minds  
everything seems clearly  
we are alive...

(chorus)

as time goes by we'll be alive...

alive...

as time goes by as time goes by (as time goes by)  
as time goes by ohhhhhh  
no one can say no cant do what theysay  
(no one can do no more)  
no one will do we'll be strong that you know  
(no one will do no more)

(chorus)
