Fantasies of outer space  
not one that just takes me  
that make me fly  
that make me see  
just what it is that I'm missing..

suddenly I'm taken out of control  
I dont know where I am  
my destiny took me to you  
I dont know what I am..

Chorus:  
But I believe in love  
( I believe in love)  
and I believe in love  
( I believe in love)  
everyday with you  
everyday with you  
no matter what I do  
I believe..  
I believe in love...

Puzzling a time or place  
what is it expected  
I see things so clearly baby  
now I know what they're missing

(chorus)

and I believe in love....

(chorus)
