"Stronger In The End"

Grew apart physically
but in heart we're still here
no regrets of the past
we're moving on together at last...

we were separated
but we know we're still here
nothing can stop us
from being us
we learn to accept the future
and what's become
nothing can stop us now...

Chorus:
We will be stronger in the end
nobody can stop us now
we will see we'll be stronger in the end
forever...

lalalalala...(stronger stronger) lalala lala..
lalalalala...(forever) lalalala..
Looking back at our lives
there's so much to love at last
we keep moving on together
we know we will be here forever

people tried to tell us we were not meant to be
no one knows exactly what we have
you and me...

(chorus)

in the end...

(chorus)

I said we will be stronger stronger we will be
at the end my love you will see...
