A Time to remember
a time to remember

Look into my eyes
yeah the ones that you deny
every day and every night
when I'm passing next to you
you look at me so strangely
but I know what you're thinking
I know you really want me
and you cannot deny it
I know you want my love
you wish my body was yours
you take me higher
you want me so deeply
so I'm gonna give it to you
I'm gonna give it to you right now

Let's make this the time to remember
the time to conserve it forever
Let's make this the time of our lives
and let's give it forever and ever...

Chorus:
I'm gonna make this last gonna make this blast
I'm gonna keep it shaking baby
till you can't have no more
what you see is what you believe
gonna give it to you baby no need to pretend now no
more
I'm gonna make this love
I'm gonna shake it up some more
gonna make sure that you love me
or you wanna be with me
even if its forceful a potion
of devotion gonna give it to you now

looking at the corner waiting for you to pass to give you
my surprise
that's for sure gonna last
you're not gonna see it coming gonna give it to you
now..

Let's make this the time to remember
the time to conserve it forever
Let's make this the time of our lives
and let's give it forever and ever...

Chorus:

I'm gonna make this last gonna make this blast
I'm gonna keep it shaking baby
till you can't have no more
what you see is what you believe
gonna give it to you baby no need to pretend now no
more
I'm gonna make this love
I'm gonna shake it up some more
gonna make sure that you love me
or you wanna be with me
even if its forceful a potion
of devotion gonna give it to you now...

instrumental

Chorus:

I'm gonna make this last gonna make this blast
I'm gonna keep it shaking baby
till you can't have no more
what you see is what you believe
gonna give it to you baby no need to pretend now no
more
I'm gonna make this love
I'm gonna shake it up some more
gonna make sure that you love me
or you wanna be with me
even if its forceful a potion
of devotion gonna give it to you now
