Raindrop  
That fills the time  
Swinging by  
Like a breeze wafts a feather  
Rain that carries  
The fresh scent of heather  
Falling rain  
The little drops coming from heaven  
Come to wash all my cares  
Away  
To the river's end

Washing stars  
To shine with a twinkle  
Washing faces  
To smooth out the wrinkles  
Touching skin  
I dance like a madman in pleasure  
Come and shower me with your love  
Sweet loving rain, come  
From the high heavens  
Bring me a star  
Into my heart  
Rain .....
