Spoken into:

Chapter one â€¦..

Once upon a time in a world long ago were two
wonderful souls who happened to meet
As destiny may so have itâ€¦

With your beautiful eyes

Drawing me in

I expose all

With your beautiful eyes

Watching each move

I open to it all

I change all my previous plans

Seeing the lines on your strong hands

Oh sweet heaven above, this is love

Cause you can read my soul lines

Read me baby Open this book

The stories are many Just have a look

And when you finish Just turn off the light

Come to bed now, Hold me real tight

And read my soullines

A shiver goes up my spine

Knowing it's time

To make the next big move

This is the moment to choose,
No more time to lose
Cause you are the one
I feel fragile yet oh so strong
No more explanations of right or wrong
Just the pure sweet joy
Of finding someone
Who can read my soullines
Read me baby Open this book
The stories are many Just have a look
And when you finish Just turn off the light
Come to bed now, Hold me real tight
Yes,,,,,,Read me baby Open this book
The stories are many Just have a look
And when you are ready
Just turn off the light
Come to bed now
Hold me tight and read my soullines.

VAMP:
And love me
Page by page you gently turn me
Reading these lines we are learning
an ooo sweet child how I am yearning
Burning
Finally found someone who can read my soullines
