In the night of the silvery moon
I surrender to you
In the night of the silvery moon
I surrender to you

Falling again through the stars
Take me in your arms
In the night of the silvery moon
I surrender to you

Holding your hand
As we walk through the woods
Stepping much closer this time
Dropping in silence
We talk through our touch
As our minds disappear again

Holding your hand
As we walk through the woods
Stepping much closer this time
Dropping in silence
We talk through our touch
As our minds disappear again

In the night of the silvery moon
I surrender to you

Falling through the stars
Take me in your arms
Sweet surrender in love

Falling through the stars
Sweet surrender in love
