Only
Only Tonight
Life will take its course through satellite
To say I'm only dreaming
And it was the greatest thing that I've ever seen in
my life

But my view was broken when I saw you

I
I
I see you by her side
And I know it will hurt tonight

I grew up in a city of lies and
Immature people filling up the sidewalks
And I know you're not sorry
It wasn't hard to figure out
But in this life I know not to let myself down
And I know I'm just a child
Surrounded by deception
But I know I'm not alone
In this town of misconception

But my view was broken when I saw you
But I shattered when I saw her too

I
I
I see you by her side
And I know it will hurt tonight

I'm glad to know this is who you've become

But my view was broken when I saw you
And I know it will kill tonight
