And they say, ?Let's go this way?
You can't go home again unless you shed your skin
The words I meant to leave left out, reach in deeper
The words I meant to leave left out, darker, darker

Don't worry, I can't kill the memory
(I wish I could)

Paint it black, we are white, I cannot come clean, come
clean
Run me away, I'll spend my life and I won't waste your
time
The words I meant to leave left out, oh, come on
The way you felt to just get out, don't release me

Don't worry, I can't kill the memory
(I wish I could)

Paint it black, we are white, I cannot come clean, come
clean
Break down, I'll fade away, a life worth living can't be
saved
