(Alexis Jordan)

Together, we go together (yes)

Together, Together

(Katy B)

Yeah, the fox streets back up, something in the frozen

Drop something, always have a end

Drop not the hour

Anyway want's root

Anywhere we go

Almost have a happy ending this

Almost have a not drop this

Anywhere when you got reflector

Anywhere we go

Almost not here worried this

(Alexis Jordan)

Say nothing, end up me

I do nothing of me

Almost clear, anywhere go

Cause you me, ah

Nowhere where we go, us, almost we go uh, us end's

the weather

We go together

Are ain't clear, ah

Just step of me, uh, uh, just step me uh, us end's the

weather

We go together

Together, together

We go together

Together, Together

(Katy B)

Yeah, and i said to walk

Anywhere we stop landing

Almost have a lemmure

I ain't see nothing

Temperature, clear of my way

What you saying of me

Said i can't talk with me

Because i can go to bus

Almost not drop with no other one this

## Anywhere we drop this
