Ooh.  
Take it off...  
Yeah...  
And you, you can't remind me of who I really am  
I've got your T-shirt on but you can take it off  
So take it off  
So take it off  
When I'm with you, I want you  
I'll do anything  
To get you directly and get you home with me  
You know I really wanna make you mine  
And I'm always thinking about you all the time  
And I don't know anybody that's as fine as you  
oh, oh...  
And you, you can't remind me of who I really am  
I've got your T-shirt on but you can take it off  
So take it off  
So take it off  
You hold me, you're sexy,

Maybe i'm [...]  
You know I really wanna make you mine  
and I'm always thinking about you all the time  
and I don't know anybody that's as fine as you  
oh, oh...  
And you, you always see me whether it's stuck or light  
So I'll give you a shot 'cause baby it gets hard  
And you, you can't remind me of who i really am  
I've got your T-shirt on but you can take it off  
So take it off  
So take it off  
I want you take it off  
And you you can't remind me of who I really am  
I've got your T-shirt on but you can't take it off  
(Take it off, off, off... )
