Back in days as we speak and multiply the thoughts in
my mind
What will happen when I die
Free as a bird
Happy in the sky
War on our earth
Lord why oh why justice
Please take me by the hand
Lead me to the place just like alice went to wonderland
Damn I am in a bad mood what shall I do excuse you
for abuse
Thank youthy kingdom come and you'll see what I
mean
Deep breathe inhale for some oxygen
Where I've been you never can imagine lookin' for the
light
Day after still laughin' life sucks payback is a bitch
I pray to god yes I wanna be rich lookin' for money and
the faith real quick
Been thinkin' about it all the time makes me really sick
1,2,3 are you ready
1,2,3 are you ready for the slow jam
1,2,3 are you ready we won't stop 'til we gettin' our
thing
1,2,3 are you ready
Look time for me and you to take a look in the book
Read between the lines no garantie you get the book
Ready or not you better watch out coz here I come
Let me say hi to bill and hillary clinton
What about the subject my brothers in the projects a
minute or two will do my love and my respect hard
times I've been thru no gold on my spoon mama left
me my sister and my two brothers too back behind still
together we climb searchin' day and night prayin' for a
better life lord dear lord in heaven above obedience is
better than sacrifice that's why I am tough freedom
and justice exactly what we lookin' for free our pains
and maintain so earth and the universe now is the time
to go for you and yours
