I'm praying for a band of fallen angels  
So beautiful  
I'm lonely for the touch of perfect strangers  
A tale of paradise to own

For one night  
Fire reigns  
And swallowed like a dream  
It leaves another  
Stain

I'm running from  
The burning bridge  
Behind me  
Too numb to fly  
I'm running from the burning man inside me  
'Cause what you steal, you steal alone

Contagious lies  
Feed the flame  
Hearts fracture like a stone  
And bleed just the same
