Baby who is that dude that is crying up on you
Cause I am trying to get up on you right now
Cause it's all up in your face
Got his hands up on your waist
And I am trying to get up on you right now
When the dj is switching up I am gonna stay alone the floor
Just crime with it crime with it
When the dj is switching up I am gonna stay alone the floor
So baby don't go away cause I am waiting for you
I am waiting for you
Tonight I got to have you
Ooo I am waiting for you
Cause in this club you are the baddest girl
I can't lie you make me wanna cry
When I look in your baby I can't take no no
Your sex appeal killing me for real so baby wait
When the dj is switching up I am gonna stay alone the floor
Just crime with it crime with it
When the dj is switching up I am gonna stay alone the floor
So baby don't go away cause I am waiting for you
I am waiting for you
Tonight I got to have you
Ooo I am waiting for you

All i want is to dance the night away with you girl
I have been waiting for you
You are like ma fantasy come true
I am waiting for you
I wanna get and dance
I am waiting for you girl
Cause in this club you are the baddest girl
I am waiting for you
For you girl right now
Oo I am waiting for you girl
Cause in this club you are the baddest girl
