I'll build this mindship legacy  
For generations to come,  
Sons and daughters will carry it  
And worship what they have become,

What's ahead now, could it be what I think?  
What's that image, is it the next miracle?

Oh yeah I see it coming clear now,  
I think I've gone insane,  
Could it be? Have I gone insane?  
No, it's just the next miracle,

I've built my anchors for ages,  
You have been secretly anchoring too,  
Together, you along with the entire universe  
Build anchors every day without a friggin' clue,

What's ahead now, could it be what I think?  
What's that image, is it the next miracle?  
Looking 'cross the way just to see and fear yesterday  
Crossing over bridges just to cheat through another  
day,

A faster kill - roller coaster thrill,  
Keep moving stop, don't ever stop,  
A faster kill - roller coaster thrill,  
Keep moving stop, don't ever stop,  
Faster kill, faster kill, host your thrill, host your thrill,  
Faster kill, faster kill, host your thrill, host your thrill,

Alone I stare directly into the sun  
One day hoping to finally see some light,  
Music and emotions will keep making miracles  
Until they decide to let me win the final fight.
