Tell me all that you know,
Tell me when we can go,
When I get off that ride
I am going right inside,
Look at who I once was,
Look at who I am right now,
Look at who I'm gonna be,

You produce me like a generes,
I gotta go out as a likeness,
You wanna cast me? I'm an outcast,
I wanna get myself inside your skin,
I just wanna become you,

You start what I can't begin,
You give me what I can't take,
You tell me what I can't hear,
You guide me where I can't go,
You are my light when I'm blind,
You made me win when I quit,
You gave me life when I died,
You turned my future my past,

Make me now, make me now
What I could never be,
Pay the way, pay the way
That makes a dream come true,
Don't refuse, don't refuse
To see the change in me,
Can't you see, can't you see
That this must be done first?

Live show at home
Walking a rope of thread,
With over 10 years of nitroglycerin
Just ready to drip it.
