### Chorus

When the sunshine comes  
Its rays they seem to talk to me  
When the sunshine comes  
The sunny days shine on to set me free

### Verse 1

It seemed like it took forever ..for that sun to shine  
counting down the days in the back of her mind  
years without a man, a hill that's hard to  
climb  
at times she'd mask it, acting like all is fine  
with her, party nights, Gemini life  
hangovers barely sober, with her stomach uptight  
yeah, a few flings but none that brought a ring  
her clouds followed proud, till one evening  
it's like her spell erased, replaced by this  
dude  
hotter than Vegas summers, with charm its major news  
PhD degree, male chivalry  
even carried her on his back drunk in shiny shoes  
romance, here's her chance, ring in his hand...  
tears embraced her cheek saying yes to the plan.  
call the girls, they wont believe the ring she had  
finally, the sun touched her skin as she sang..

### Chorus

### Verse 2

Now for Jon this step was major, favorably viewed  
Jane had looks and brains, and his parents approved  
it happened so quickly, but what could he do  
the pressure built swiftly, with his girl in his groove  
like planting seeds talking honeymoon in Greece  
marriage, baby carriage, what your parents think of  
me?  
Apparently, they been wanting this knot tied  
but this smothered his vibe, till clouds hovered his  
mind  
sucking up time from his med school grind  
he tried to unwind, forget wine, he sniffed lines  
a blast to his past, his college days ways

that white holiday where he'd frolic and play  
now to most, this might seem dark in every sense  
but for Jon, he saw sun with every hit  
until he saw his girl, when she found his crack pipe  
the words from her mouth, threw him off into a fight  
no resolution they broke up that night  
months passed, . her tears dried. as she  
cried "f---, f---!"

Chorus

Verse 3

Nowadays, Jane wakes up feeling refreshed  
knowing that she's glowing, from growing without  
regrets  
minus a few steps multiplied by its mess  
ctrl alt del reset equals refreshed  
the summer is here, the drama is clear  
it's time to call the girls bring the boys and beers  
day in day out, party till dawn  
until one day, her body went num  
petite frame, couldn't handle all the rum  
body in seizure, hypothermic fever  
ambulance rush to Emergency research  
the doc clears the crowd, screams out loud to leave her  
starts the IV's in blinks of an eye  
his hands on her thigh, he hopes she's  
alive  
hours go by, she opens her eyes for light,  
only to see, it was Dr. Jon, who saved her life
