Oh, Oh
Yeah, eh
Oh
Yeah, yeah, yeah, uh
(Verse 1)
Just take a breath; it's not the final episode
Come back inside and baby break it down slow;
You're crying and I really cannot hear all the words you
say, you say.
You're so afraid, and I know it's hard to comprehend
Don't turn the page; we don't know how the story ends
I'm trying and I really hope you're hearing all the words
I say, yeah

Everything comes and everything goes, everything
goes
We don't have the answers; God only knows.
(Chorus)
Hold on today
Tomorrow will fall into place
Come a little closer in the moment (Come a little closer)
Our moment is now (Our moment is now)
Stay awake
Tomorrow is so far away
Come a little closer in the moment (Come a little closer)
Our moment is now.

Brrr-uh-uh-uh-ey-ey-ey ey yeah
Ooh yeah
Oh, Oh
Uh

(Verse 2)
Just lay your head up against me where it fits so well
Remember when we used to say that time will tell;
Time has only made you more precious when it comes
to me, yeah
Don't disconnect; and bring your body into mine
I'll kiss your neck and rub my fingers down your spine
For time will never make you less precious when it
comes to me, yeah

Everyone comes and everyone goes, everyone goes
Love is the only answer I know.

(Chorus)

Hold on today

Tomorrow will fall into place

Come a little closer in the moment (Come a little closer)

Our moment is now (Our moment is now)

Stay awake

Tomorrow is so far away

Come a little closer in the moment (Come a little closer)

Our moment is now.

(Bridge)

Can't stop the hands of time

And the way it all unfolds

From the first day of our life

To the day that we let go

That's what makes it beautiful.

(Chorus)

Hold on today

Tomorrow will fall into place

Come a little closer in the moment (Come a little closer)

Our moment is now (Our moment is now)

Stay awake

Tomorrow is so far away

Come a little closer in the moment (Come a little closer)

Our moment is, our moment is now!

(Come a little closer)

Yeah, yeah, yeah, yeah. Said our moment is now!

(Come a little closer)

Oh, oh, eah, yeah

(Our moment is now)

Brrr-t-t-eah-eah-eah-eah yeah

(Tomorrow is so far away)

Brrr-t-t-t-t-t-oh yeah. Our moment is now!

(Come a little closer)

Ey, ey!

Oo-o-oo-o-oooh, Oo-o-oo-o-oooh

(Come a little closer)

Oo-o-oo-oh, Oo-o-oo-o-oooh

(Our moment is now)

Yeah

(Come a little closer)

E-Yeah

E-Yeah, E-Yeah, E-Yeah
