Hey hey hey
Ooo, oh, yeah yeah
Ooo, oh

She's moving erotic, she's on the scene again
Wearing that dress and her lips are burning red
Searching and hoping that she'll find someone who'll
have her, yeah
Inside of the madness there's a familiar face (see a
face)
Don't want him to see her cause she's so out of place
(out of place)
She turns away but inside she cries save me, please,
take me away

Take me on a ride make it all go away
Far away from this place, you're pulling me down
I never found the words that I wanted to say
I keep running away
I should be leaving, so many reasons
I wonder how I've lost my way
I stopped believing, no longer feeling
Take me away I swear I'll never come back down

She's telling herself, I'd be OK
No one followed me, poor little runaway
On her own, she survives
But where is she gonna sleep tonight
So she moves with this one (this one)
And goes with that one(that one)
Don't got to like them
Just as long as she gets a fix yeah
Now the storm is brewing, and she opens her eyes
So alone, in the crowd she cries

Take me away
Take me on a ride make it all go away
Far away from this place, you're pulling me down
I never found the words that I wanted to say
I keep running away
I should be leaving, so many reasons

I wonder how I've lost my way
I stopped believing, no longer feeling
Take me away I swear I'll never come back down

I'll never come back down (So many reasons)
So many reasons (I wonder how I've lost my way)
How I lost my way (I stopped believing, no longer
feeling)
(Take me away I swear I'll never come back down)
So won't you take me away, take me away
Oh, take me away, take me away, take me away, yeah
Ooo, oh, yeah yeah
Ooo, oh
