I wait around  
All day and night  
When you get home all you ever do is pick a fight  
I hold you up but you, you push me down  
Why can't I get out of this town

If I were you  
Well I'd know exactly what to do  
But my hands are tied tonight  
And I wish I never realized  
That nothing can save us now

Come on come on come on  
Just let me go  
Just leave me alone  
'Cause I can't take it anymore  
Don't play with my heart  
You gotta let me know  
If I ain't got a chance  
Then won't you let me go

The same old thing  
The in and out  
Why can't you save me  
'Cause the bottom is falling out  
I tried so hard  
To end this thing  
But all I ever seem to do is nothing

If I were you  
Well I'd know exactly what to do  
But my hands are tied tonight  
And I wish I never realized  
That nothing can save us now

Come on come on come on  
Just let me go  
Just leave me alone  
'Cause I can't take it anymore  
Don't play with my heart  
You gotta let me know

If I ain't got a chance  
Then won't you let me go

One of these days I swear  
I'll get the courage to walk away from you, yeah  
One of these days you'll see  
That when you get home  
I won't be waiting for you

Let's go!  
Let's go!

One two three

Come on come on come on  
Just let me go  
Just leave me alone  
'Cause I can't take it anymore  
Don't play with my heart  
You gotta let me know  
If I ain't got a chance  
Then won't you let me go

Come on come on come on  
Just let me go  
Just leave me alone  
'Cause I can't take it anymore  
Don't play with my heart  
You gotta let me know  
If I ain't got a chance  
Then won't you let me go
