Sittin in this old chair, humming on some old Stones  
tune  
Watching light hit your freckles on a summer city  
afternoon  
Those eyes of the sky light blue, across the grass we  
lay  
I'm skipping over moments, but this one I'll let play, I'm  
telling you

Coming down sidewalk pretty lady here with me  
In the arms of a lover, i'll cover you, you cover me  
I spent years hiding out, hiding words never telling you  
I know I got to find a way, if I try now, i will get through

Cause my hearts gonna love you this way  
my hearts gonna love you this way  
my hearts gonna love you this way  
and i thought I could tell you

I'm laying down my chips, gonna lay em all right down  
here  
I've been running round in circles, and circles never  
seemed so clear  
I'm just a boat without a harbor, a captain with no crew  
I'm not sorry that i said it, cause i've faded right in to  
you

Cause my hearts gonna love you this way  
my hearts gonna love you this way  
my hearts gonna love you this way  
and i thought I could tell you

Oh, where'd you go, Oh where'd you go,  
All those feelings gone for nothing, theres no way  
that's true  
Don't say I never told you
