Don't you go tellin
"cause I told you so"
It's time you realize
Time you know
I hear these stories
And I'm never amused
But I'd take 10 rounds of this
I like the abuse

Cause I'm Ready for this
I'm so ready for this

I've learned my lessons
But I'll do it again
I'm taking torture
As my medicine
So If you hear me baby
Remember how
And know that i'll be here waiting
I'll tell you right now that...

I'm ready for this
I'm so ready for this

I've done some things I'm proud
Some things I regret
Some things I recall
And some things i forget
But if you're out there
And you hear me this way
Know that I'm trying
I've been trying to say

I'm ready for this
I'm so ready for this
I'm ready for this
