(Verse 1)

When I heard the news I thought you, and all you had to be goin' through.

With a heavy heart I begin to pray, Father give them strength today.

Now I know it won't be an easy road, but you don't have to travel it alone.

We vow to stand beside you, millions are prayin' for you. We're not gonna let you go to you tell us to.

(Chorus)

We want you to know, you are not alone.

We're still prayin' for you as if they were our very own.

Yeah, yeah.

We can't say we know how you feel, but our love for you is real.

Just know that you are not alone, you're not alone.

Just know you are not alone. (Oh mmmm) You're not alone.

(Verse 2)

Right now this may seem hard to believe,
but one day you're gonna see the sun shine again,
you're gonna smile again.

I know that it hurts right now, and our hearts reachin' out.

But I hope you can feel the love, flowin' from all of us.

We love you so much.

(Chorus)

And we want you to know, you are not alone.

We're still prayin' for you as if it were our very own.

Yeah,

We can't say we know how you feel, but our love for you is real.

Just know you are not alone, you're not alone. Just know that you are not

(Choir and Adlib) (Choir in parenthesis. Adlib out side of parenthesis.)

It's times like (its time like these)

We gotta (we gotta get on fall knees)
We gotta pray (Praise God that I am a believer)
We gotta pray (I know He can heal your needs.)
Jesus can heal you, (Jesus can heal you)
No matter, no matter (Every where you go) Every where
you go. (If you give him your pain, He'll take it away.)
If you need the Lord, if you need the Lord.
(It's times like these) It's times like
(All you gotta do, is fall to your knees.) All you gotta do
is fall on your knees.
Fall on you're knees and say Jesus, Jesus, Jesus, Jesus I
need ya I need ya, help me Lord.
(Its love that I need Lord. As I fall to my knees. Jesus I
need your help. Help me Lord. If you give Him your pain
He'll take it away)
If you give Him your pain. He'll take it away. If you give
Him your pain, He's gonna take it away
Just give him you pain, give him your pain. He'll take it
away.
You are not alone. Yeah. You are not alone.
Ohhhhhhhhhhhh...ohhhhhhhh. You are not are not
alone! Yeahhhh,yeah , yeah, yeah.

(Ending)(Ends in an echo)
When I heard the news, I thought of you(Echos out)
