naive little pieces of  
what they tried to teach her  
quiet and protected  
slightly anorexic  
(She Waits)  
she's a time bomb, with her vibe on  
she's gonna use it and surprise them  
she's a time bomb, with her vibe on  
they'll never know where she got her weapon.

they really don't believe her  
she keeps it all a secret  
found the Golden Muses  
doesn't need to prove it

(She Waits)  
she's a time bomb, with her vibe on  
she's gonna use it and surprise them  
she's a time bomb, with her vibe on  
they'll never know where she got her weapon.

naive little pieces  
she thought that they could see her  
but soon the Desert Pigs will know  
she's holding in an arsenal.

(She Waits)  
she's a time bomb, with her vibe on  
she's gonna use it and surprise them  
she's a time bomb, with her vibe on  
they'll never know where she got her weapon.

She Waits.
