I was everything, and nothing  
You were somebody, something  
Please, underestimate me  
I recognize your disease

Ingested you, digested you

I know, we can be each other's blessing  
Good-bye, I'm taking a lesson  
Your cry, echoes pleasant  
Your cry is like music.

I'm everything, you're nothing  
I'm somebody, you're something  
Beautiful nemesis, we can't do this.

Ingested you, digested you

I know, we can be each other's blessing  
Good-bye, I'm taking a lesson  
Your cry is so pleasant  
Don't die - your cry is like music
