You've got your cheap talking
But I am not listenin' no more
Heeeey

You've got your head starting
But I am not watching no more
Heeeey

Troops to enforce yourself
Reasons to hate alone
You get it all I say
You get it all away
One time she's gone you know
One time she's all alone
You get it all I say
You get it all away

You've got your arms broken
But I keep asking no more
Heey

You've got your eyes open
But I see no reflection at all
Yeahhh

Troops to enforce yourself
Reasons to hate alone
You get it all I say
You get it all away
One time she's gone you know
One time she's all alone
You get it all I say
You get it all away

I'm not talkin
I'm not talkin no more
I'm not talkin
I am not talkin no more
I'm not talkin
I am not talkin no more
I'm not talkin

I am not talkin no more

Pull your head up you fall
Iâ´ve got somethin you don't
Sayin' it will it won't
Try to fix it you don't
Pull your head up you fall
Iâ´ve got somethin you don't
Sayin' it will it won't
Try to fix it

You've got no secretary
You're a small shot away from me
You've got no secretary
You're a small shot away from me

Troops to enforce yourself
Reasons to hate alone
You get it all I say
You get it all away
One time she's gone you know
One time she's all alone
You get it all I say
You get it all away
