### "Legally Fly"

Visit "[Legally Fly](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I see you're fucking upon everything  
But it still won't get me out of here  
And all your stories are not interesting  
And you're about to win

You realised that your troubles  
Would end by hand  
It hurts my eyes when I saw it  
Was all pretend  
You were so high  
You could legally fly my friend  
You were so high that you could not  
Define what's that  
It hurts my eyes when I saw it  
Was all pretend  
I reached the sky  
But the limit ain't got no end  
You were so high  
You could legally fly my friend  
You were so high that you could not  
Define what's that

And now I see what it means  
When you're joking with me  
And I can hardly be me  
When you're looking like this  
I let it in, I let it in, I let it in  
And you're about to win

You realised that your troubles  
Would end by hand

It hurts my eyes when I saw it  
Was all pretend  
You were so high  
You could legally fly my friend  
You were so high that you could not  
Define what's that  
It hurts my eyes when I saw it  
Was all pretend  
I reached the sky

But the limit ain't got no end  
You were so high  
You could legally fly my friend  
You were so high that you could not  
Define what's that

I see they're watching  
But little things  
You were so high  
You could legally fly my friend  
You were so high that you could not  
Define what's that  
I see they're watching  
But little things  
And I, and I, woke up, ?  
No I try, I try, I try, I try

I see they're not doing better  
But we're doing fine and we're doing fine  
I see they're not doing better  
But we're doing fine and we're doing fine
