"Let Me Go"

Take my mind, let it roll
Waste my time on what I know, yeah
Take a pill to swallow
There's no one to follow now

Set me free! Let me go!
I can't breathe I don't wanna know
Let me be from all this pain
To many scars I don't wanna show

Give me a sign to follow
There's no where to go I know
Take a pill to swallow
There's no one to follow now

Set me free! Let me go!
I can't breathe I don't wanna know
Let me be from all this pain
To many scars I don't wanna show

(KEEBLE SOLO!)
