Got six troubles, on my back  
Like six little milk teeth, all gone bad  
Won't move over, won't get gone  
Won't move over

Fried my little brains  
Fried my little brains  
Fried my little brains  
Fried my little brains

Only got ten minutes, better get me good  
Pull out my little milk teeth, pull good  
Won't move over, won't get gone  
Won't move over

Fried my little brains  
Fried my little brains  
Fried my little brains  
Fried my little brains

Won't move over, won't get gone  
Won't move over, won't get gone  
Won't move over, won't get gone  
Won't move over

Fried my little brains  
Fried my little brains  
Fried my little brains  
Fried my little brains
