This ain't murdermile, that's just the way I smile  
You're like hot oil, got your roots down in a fire  
Spitting shit like a tyre, got your foot down and your  
mind down  
To it's last little wire, come on, come on

It's a train wreck, you got me on the wrong track, honey  
It's a train wreck, you got me on the wrong track, honey  
It's pilin' up one by one, it's pilin' up one by one

You look bluer, do your do or die  
But I ain't pull or push that pin in your side  
A body split in two doesn't know how to sleep  
A body split in two doesn't know how to sleep  
You're standin' on your head, while you're standin' on  
your feet  
A body split in two doesn't know how to sleep

It's a train wreck, you got me on the wrong track, honey  
It's a train wreck, you got me on the wrong track, honey  
It's pilin' up one by one, it's pilin' up one by one, it's  
pilin' up one by one

This ain't murdermile, that's just the way I smile  
You're like hot oil, got your roots down in a fire  
Spitting shit like a tyre, got your foot down and your  
mind down  
To it's last little wire, come on, come on

It's a train wreck, it's pilin' up one by one  
It's a train wreck, it's pilin' up one by one  
It's a train wreck, you got me on the wrong track, honey  
It's pilin' up one by one, it's pilin' up one by one
