

Kills "Sweet Cloud"

Visit "[Sweet Cloud](#)" on MotoLyrics.com

She upset the weather
She upset my sweet cloud
Growing black, thick and heavy
Strike me, now gonna put me down

She upset my brother
She upset his sweetheart
I love him so I do not kill
I know no words to make it right

I know no words to fix my killin'
I know no words to fix my killin'
I know no words to fix my killin'

But I'll do anything to bring my brother alive
I know no words to fix my killin'
But I'll do anything to bring my brother alive

Lost a lot of blood
Lost a lot of cool cool
Lost a lot of blood
Lost a lot of cool cool cool

She upset his mornin'
She upset his afternoon
I see no way, I see no right
The night calls it stays on the night

I know no words to fix my killin'
I know no words to fix my killin'
I know no words to fix my killin'

But I'll do anything to bring my brother alive
I know no words to fix my killin'
But I'll do anything to bring my brother alive

Lost a lot of blood
Lost a lot of cool, cool
Lost a lot of blood
Lost a lot of cool, cool, cool

Lost a lot of blood

Lost a lot of cool cool
Lost a lot of blood
Lost a lot of cool cool

Lost a lot of blood
Lost a lot of cool cool cool
Lost a lot of blood
Lost a lot of cool cool cool

I know no words to fix my killin'
I know no words to fix my killin'
I know no words to fix my killin'

But I'll do anything to bring my brother alive
I know no words to fix my killin'
But I'll do anything to bring my brother alive

I know no words to fix my killin'
I know no words to fix my killin'
I know no words to fix my killin'

I know no words to fix my killin'
I know no words to fix my killin'
I know no words to fix my killin'
