Tastes so great
More than ordinary
Found this way
It's getting kind of scary

Getting true you would change then
And just like I'm at the wrong place
At the wrong time

It ain't right for me to know
Who ya, are ya, shoulda met you first
But that's not how it works

So I'm giving all control
Hoping, praying, wishing, waiting on you

Cause I know, I know, I know
Everyday you're get me closer
But time is taking slow

And I know, I know, I know
There is no room to be impatient
I don't mind waiting

What's your name?
The day you come with no one
Come on this way
Stranded on the pavement

My mama would say
You gonna find the right one
At the right time

It ain't right for me to know
Who ya, are ya, shoulda met you first
But that's not how it works

So I'm giving all control
Hoping, praying, wishing, waiting on you

Cause I know, I know, I know

Everyday, you're getting me closer
But time is taking slow

And I know, I know, I know
There is no room to be impatient
I don't mind waiting

I know, I know, I know
Everyday, you're getting me closer
But time is taking slow

And I know, I know, I know
There is no room to be impatient
I don't mind waiting

With forever on the line
I'm looking for a sign
A little bit of wind below these clouds
Where is light to let me know
It's all worth wild

Cause I know, I know, I know
Everyday, you're getting me closer
But time is taking slow

And I know, I know, I know
There is no room to be impatient
I don't mind waiting

I know, I know, I know
Everyday, you're getting me closer
But time is taking slow

And I know, I know, I know
There is no room to be impatient
I don't mind waiting

I don't mind waiting
