You're a superstar
Everyone knows who you are
You think, you think you're so damn
Hot, hot, hot, hot

You're a superstar
Everyone knows who you are
You think you're everything but baby
You're not, not, not, not

Superstar, superstar
Driving in your fancy car
Wishin' you could take me home
You got the lingo and the pedigree
Flip the script and get to me
But you just can't get off your phone

Don't mean to burst your bubble
Don't wanna waste your time
I've got the feeling
Your priorities are out of line

Even though I know you're troubled
You're gonna do just fine
You've rehearsed your lines
Now it's time for you to shine

You're such a star
You wanna take it away
Go on and take it away
You play my heart
With every word you say

And toss it
Tear it up
Rip it up
You're gonna smash it

Shopping sprees and limousines
Flash a little jewelery
You bought it all but I'm not sold

Audience will never see
The real you cause it's VIP
You gave your soul to get the role

Don't mean to burst your bubble
Don't wanna waste your time
I've got the feeling
Your priorities are out of line

Even though I know you're troubled
You're gonna do just fine
You've rehearsed your lines
Now it's time for you to shine

You're such a star
You wanna take it away
Go on and take it away
You play my heart
With every word you say

And toss it
Tear it up
Rip it up
You're gonna smash it

You're such a star
You wanna take it away
Go on and take it away
You play my heart
With every word you say

And toss it
Tear it up
Rip it up
You're gonna smash it

You're a superstar
Everyone knows who you are
You think, you think you're so damn
Hot, hot, hot, hot
(You think you're so damn hot)

You're a superstar
Everyone knows who you are
You think you're everything but baby
You're not, not, not, not

Don't mean to burst your bubble
Don't wanna waste your time
I've got the feeling
Your priorities are out of line

Even though I know you're troubled
You're gonna do just fine
You've rehearsed your lines
Now it's time for you to shine

You're such a star
You wanna take it away
Go on and take it away
You play my heart
With every word you say

And toss it
Tear it up
Rip it up
You're gonna smash it

You're such a star
You wanna take it away
Go on and take it away
You play my heart
With every word you say

And toss it
Tear it up
Rip it up
You're gonna smash it

You're such a star
You wanna take it away
Go on and take it away
You play my heart
With every word you say

And toss it
Tear it up
Rip it up
You're gonna smash it
